

Pioneering Safety at Sea

Your vessel's safety demands more than routine maintenance.

Our Lifecycle Contract delivers the operational confidence only original system specialists can provide — with tailored service aligned to your vessel's real-world needs. Because your vessel deserves services designed just for you.

The value gained with a life cycle contract

Service Attendance

OEM testing | IMO, IACS, MSC, FSS compliance | Software upgrades | Passenger safety | Crew readiness

Predictive Maintenance & Service Savings

Exclusive discounts on spares & onboard services | Reduced rates on consulting & emergency support | Efficient spares management | Increased Operational efficiency

24/7 OEM Support & Priority Services

24/7 support | Around-the-clock support | Remote technical guidance | Emergency Service Attendance for critical issues | Global Prioritized response.

Tailored Crew Training

Customized Online/Onboard training | Vessel-specific | Accelerated crew readiness

Obsolescence Management

Expert upgrade guidance | Long-term system protection

Documentation & Data Management

All service history, certifications, and diagnostics are digitally logged, streamlining port inspections and audits | Always inspection-ready | Empowering smart, data-driven maintenance planning

Total Cost of Ownership

Enjoy a 1-year warranty extension after every successful annual service | Reduced OPEX

With the Lifecycle Contract, you're not just maintaining your systems, you're commanding their future. This is more than a service plan. It's a strategic safeguard, a compliance passport, and a performance partnership, engineered by the experts who built your systems.

Contact us today to tailor a lifecycle
service plan for your vessel or fleet.
